CONFIDENCE OF PARISIANS IS INCREASING DAILY

PARIS, September 5 (6:30 P. M.).—Confidence of the Parisians in the ability of the allied armies to prevent the Germans entering or even investing the city increases daily. The military governor, who is in sole command since the departure of President Poincaré and the Cabinet, has issued every precaution for defense against attack.

The possibility of information concerning the preparations for the defense of the city reaching the adversary, determined the authorities to repress every reference to the military disposition, or their strength. Accordingly the official communications are restricted and every reference is regarded as favorable to the allies.

BATTLE LINE EXTENDS ALONG ABOUT 600 MILES

LONDON, September 5 (9 P. M.).—A Vienna dispatch, dated September 2 and sent by an indirect route to the Reuters Telegram Company, says: "This is the seventh day of the colossal battle in which about 2,000,000 Russians and Austrians are engaged. The battle front extends along about 620 miles from Prussia in the North to the Danube in the South."

"The Russians were burning for a fight in the South, and their supreme effort was directed toward annihilating the entire Austrian army in that region, and thus remove it from their flank before beginning the real attack on Germany."

"The battle began by a turning movement in Russia's favor, and early to-day, after a conflict of the most sanguinary description, the Austrians abandoned Lemberg, which the Russians occupied."

"The correspondent says he is authorized to state that the commissioning of Jews as officers of the army and navy will be followed by the removal of civil law restrictions, and that Jews will be admitted to the full rights of Russian citizenship."

RUSSIA MAKES IMPORTANT CONCESSIONS TO JEWS

In Future They Will Be Admitted As Officers of Army and Navy.

Special Cable to The Times-Dispatch. LONDON, September 5.—Telegraphing from Petrograd, the Standard's correspondent states that the Jews will in future be admitted as officers of the Russian army and navy.

The announcement of the important concession to the Jews was made on official authority, and was well received in all quarters. Up to the present, no Jew had been allowed to be military or naval officer.

The decision to admit them to the highest ranks of both services is officially stated to be due to the gallantry which the Jews serving as common soldiers have displayed in the battles already fought.

The Imperial decree has enabled the Russian commander-in-chief to confer officers' commissions on several hundred Jews who gained exceptional distinction in the fighting preceding the capture of Lemberg.

The correspondent says he is authorized to state that the commissioning of Jews as officers of the army and navy will be followed by the removal of civil law restrictions, and that Jews will be admitted to the full rights of Russian citizenship.

another American was honored, this time the prize going to Elhu Root. PRIZE IS ESTABLISHED FOR GOOD OF HUMANITY

All of Nobel's prizes are to go to those who have contributed to "the good of humanity."

The fact that two Americans have been honored may operate against another American being considered, but those who have spoken of President Wilson point out that there can be no disputing that his work in preventing war with Mexico at a period when the world seemed to be war mad, stands head and shoulders above any work done anywhere else in the world, and leaves little question that he is entitled to the prize, either this year or next.

That the President may become the main factor in the settling of the European war is predicted by his admirers, who believe that the world will eventually accord him a place no other man has occupied as a disciple and maker of world peace.

AUSTRIANS COMMIT TERRIBLE ATROCITIES

PETROGRAD (St. Petersburg), via London, September 5 (11 P. M.).—The correspondent of the Novoe Vremya, who witnessed the storming of Shabatz, near by Serovsk, describes atrocities which he claims were committed by the Austrians while they held the town for a fortnight. The correspondent says that 125 citizens were bayoneted to death in the Cathedral Square before the eyes of 1,000 women and children, who had been locked in the cathedral, which had been transformed into a prison. He declares that houses were burned by wholesale. A woman doctor told him she had seen petroleum poured over a wounded Serbian and then set afire.
